

IN THE CLAIMS

Claims 1-5 (Cancelled).

Claim 6 (Previously Presented): An oil composition, comprising about 0.1 to 59.8% by weight of a triglyceride, about 40 to 99.7% by weight of a diglyceride, about 0.1 to 10% by weight of a monoglyceride, and at most about 5% by weight of a free fatty acid, wherein a content of  $\omega$ 3 unsaturated acyl groups having at least 20 carbon atoms and monoenoic acyl groups in acyl groups consisting the diglyceride are about 15 to 89.5% by weight and about 10 to 84.5% by weight, respectively.

Claim 7 (Previously Presented): The oil composition of Claim 6, which further comprises 0.1 to 10% by weight of a glyceride polymer.

Claim 8 (Previously Presented): The oil composition of Claim 6, wherein a content of  $\omega$ 6 unsaturated acyl groups in acyl groups consisting the diglyceride is 0.5 to 75% by weight.

Claim 9 (Previously Presented): The oil composition of Claim 6, wherein the triglyceride comprises 8 to 24 carbon atoms in acyl groups consisting the triglyceride.

Claim 10 (Previously Presented): The oil composition of Claim 9, wherein the triglyceride comprises 16 to 22 carbon atoms in acyl groups consisting the triglyceride.

Claim 11 (Previously Presented): The oil composition of Claim 6, wherein said triglyceride contains at least 55% of unsaturated acyl groups based upon all acyl groups present.

Claim 12 (Previously Presented): The oil composition of Claim 11, wherein said triglyceride contains at least 70% of unsaturated acyl groups based upon all acyl groups present.

Claim 13 (Previously Presented): The oil composition of Claim 12, wherein said triglyceride contains at least 90% of unsaturated acyl groups based upon all acyl groups present.

Claim 14 (Previously Presented): The oil composition of Claim 6, wherein said triglyceride is obtained from a vegetable oil, animal oil, fractionated oil or random transesterified oil thereof.

Claim 15 (Previously Presented): The oil composition of Claim 6, wherein said acyl groups comprising the diglyceride comprises said  $\omega$ 3 unsaturated acyl groups in an amount of 20 to 70% by weight, and said monoenoic acyl groups in an amount of 12 to 45%.

Claim 16 (Previously Presented): The oil composition of Claim 15, wherein said acyl groups comprising the diglyceride comprise said  $\omega$ 3 unsaturated acyl groups in an amount of 25 to 65% by weight, and said monoenoic acyl groups in an amount of 12 to 35%.

Claim 17 (Previously Presented): The oil composition of Claim 16, wherein said acyl groups comprising the diglyceride comprise said  $\omega$ 3 unsaturated acyl groups in an amount of 50 to 65% by weight, and said monoenoic acyl groups in an amount of 14 to 25%.

Claim 18 (Previously Presented): The oil composition of Claim 6, wherein said  $\omega$ 3 unsaturated acyl groups having at least 20 carbon atoms comprise eicosapentaenoyl or docosaheptaenoyl groups.

Claim 19 (Previously Presented): The oil composition of Claim 6, wherein said monoenoic acyl groups comprise hexadecamonoenoyl, octadecamonoenoyl, eicosamonoenoyl or docosamonoenoyl groups.

Claim 20 (Previously Presented): The oil composition of Claim 8, wherein said  $\omega$ 6 unsaturated acyl groups comprise linoleyl,  $\gamma$ -linolonyl or archidonoyl groups.

Claim 21 (Previously Presented): The oil composition of Claim 8, wherein said  $\omega$ 6 unsaturated acyl groups are present in an amount of 0.5 to 50%.

Claim 22 (Previously Presented): The oil composition of Claim 21, wherein said  $\omega$ 6 unsaturated acyl groups are present in an amount of 1 to 25%.

Claim 23 (Previously Presented): The oil composition of Claim 22, wherein said  $\omega$ 6 unsaturated acyl groups are present in an amount of 1 to 15%.

Claim 24 (Previously Presented): The oil composition of Claim 6, wherein said monoglyceride is present in an amount of 0.1 to 5%.

Claim 25 (Previously Presented): The oil composition of Claim 6, wherein said free fatty acids are present in an amount of at most 2%.

Claim 26 (Previously Presented): An oral medicinal composition which comprises the oil composition of Claim 6, and a carrier.

Claims 27-33 (Cancelled).

Claim 34 (Currently Amended): The oil composition of Claim 6, which is produced by a process comprising the steps of ~~fractionating~~ fractionating triglycerides, diglycerides, monoglycerides, glyceride polymers and free fatty acids obtained by transesterification of an oil containing  $\omega$ 3 unsaturated acyl groups, and monoenoic acyl groups, and mixing these fractionation products with one another.

Claim 35 (Currently Amended): The oil composition of Claim 6, which is produced by a process comprising the steps of transesterifying a mixture of fish oil and glycerol in the presence of an alkali catalyst, fractionating a resulting product therefrom and mixing resultant fractionation products with ~~on~~ one another.

Claims 36-50 (Cancelled).
